

Complimentary Consultation Certificate

This certificate is presented to you to determine if our natural, non surgical approach may be the solution to ending your struggle with persistent neck, back, headache, muscle or joint pain.

This certificate offers you an opportunity to tour the office and meet the clinic director, Dr. Thompson, to discuss if our approach may be right for you. The consultation with the doctor takes about five minutes. If he determines that you appear to be a good candidate for our care, he will discuss what exam services need to be performed to determine the extent and severity of your problem.

If you appear not a proper candidate for our approach, he we will discuss and direct you to other options that may better assist you. This complimentary consultation does not include a physical examination, x-ray imaging studies, or treatment. Those fees will be discussed with you prior to being rendered. You are under no pressure or obligation to begin any program of care.
